

mSupply ColdChain

1. Getting started with mSupply ColdChain
2. Setting up sensors
3. Application settings

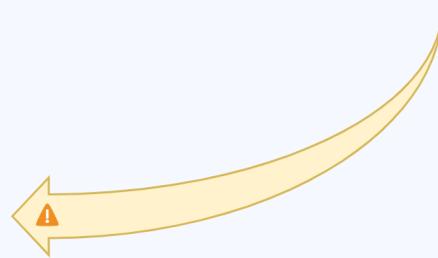

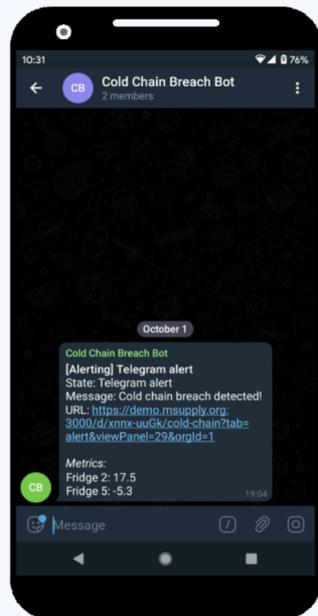

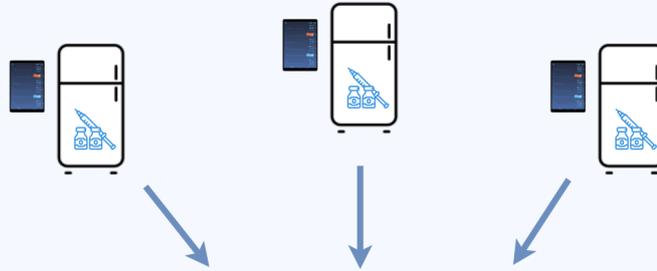

Monitor **cold storage** temperatures in real-time using our **free** Android app

- No internet required (uses **Bluetooth**)
- Get **alerted** in real-time
- Connect up to 6 sensors per tablet
-  **open source!**

Integrate with mSupply Desktop to expand functionality:

- Monitor **multiple tablets** simultaneously
- View **compromised stock** via a web browser dashboard.
- Receive **instant messages** about temperature breaches directly to your phone.

- Real-time alert notifications
- Telegram / email and more
- open source dashboard!
- open source alert channels!
