## mSupply Table

This is a custom panel which will need to be installed on your server. Contact mSupply support if this panel is not available to you. The mSupply table is an extension of the bundled Table plugin, which adds \* clickable actions to cells which update filter values \* a button which allows exporting the data direct to excel (requires the msupply-dashboard-app plugin also )

Be aware that it also removes the Filter functionality of the bundled table plugin.

The screenshot displays the mSupply dashboard interface. At the top, there are navigation tabs for 'Item Stock', 'Expiry Items', 'Item Stock by Store', 'Items', 'MOS', 'Overview', 'Purchase Orders Outstanding', 'Store Details', 'Stores', and 'Turnover'. The 'Item Stock' tab is active, showing a table of 'Stock on hand' with columns for Item, Unit Price, Stock, and Source. Below the table is an 'Export' button. To the right, a map titled 'Months of stock by Store' shows New Zealand with colored circles representing stock levels at various locations. A legend indicates stock levels: < 1 (red), 1-6 (orange), 6-12 (green), and 12+ (blue). Below the map is a table header for 'Stores' with columns for Unit Price, AMC, Stock on Han, Qty 1, Batch 1, Expiry 1, Qty 2, Batch 2, Expiry 2, Qty 3, Batch 3, Expiry 3, and Qty 4. A dropdown menu above the table says '-- Select a single item --'.
