# 5. Setting up the Users to access the store

At least one user needs to be added to the new store on the Primary server. The users will access the store from the device, but their credentials need to be set up on the Primary server.

If you have used method 3.03 to create the store by cloning another sync store, the following steps are only required if you have further users to add.

# 5.01. Setting up Store access for Users

• To set up users on the Primary Server please refer to the mSupply User Guide managing users.

For mSupply Mobile, User configuration should be set as:

- Active
- Permitted to login to the store
- No permissions needed in the store, unless the user needs to edit mobile settings.
- More than one user can be configured to log in to the facility.

When creating new users who will be using mSupply Mobile, there are few restrictions. Spaces, hyphens, capitals and special characters are permitted. However, consider the following to make them easier to enter on a tablet:

- Only use lower-case letters for both username and password
- Consider using short, single word usernames and passwords
- **Strongly recommend** that you take care not to have trailing spaces at the end of the username or password

## 5.02. Setting up Store access for Admin Users

At least one Admin User needs to be set up to have have access to the new store on the Primary server. This user will normally be the Sussol user that was used to set up the new store, but there could well be other local mSupply administrators that need access.

1. Go to	Admin > Ec	lit Users				
	R	9	ā	$\bigcirc$	1	
	Customer	Suppliers	ltem	Reports	Special	Admin
- F		((1))			_	
		<u>ک</u>	1	<u>e</u>		
		Check for upo	fates Edit	users	View log	
			201	3		
			$\mathbf{\nabla}$	9		
			Preferences	Backup		
1	Data File: Demo_data_	171017.4dd	0	ก		
	General Warehouse	1	mSu	VICICI		

### 2. Select the user and go to Login Rights

G	eneral	Permissions	Permissions (2)	Permissions (3)	Login rights	Details Dashboard	
lame		ls di	abled	Default store		Can login	
Drug Registration		(					
General Warehouse							
Cryffindor District Store		(		D			
logwarts Dispensary							
lospital Info System							
iufflepuff Health Centre							
Aobile Store 1		(					
lytherin Health Centre				0			
upervisor- All stores				0			

#### 3. Select the new Store

4. Click **OK** 

# **5.03. Setting up Admin access to the device Settings**

- To carry out various admin functions on the device, the logged in user needs the appropriate permission to access the mobile **Settings** page.
- You will likely *not* want the local users to have this permission. If that is the case, then an Admin user needs to be configured to have this permission.
- The Sustainable Solutions Sussol is hard-wired *not* to have this permission. A special Sustainable Solutions user called SussolMobile can be set up to have this permission.

In the mSupply Central server:

- 1. Log into the mobile store
- 2. Go to File > Edit users
- 3. Select the mobile user (whom you want to give permission to access Settings remember, not

the Sussol user 🧡), double click it. An edit user window will open.

4. Go to **Permission (3)** tab and check the **View/edit preferences** permission on

				Edit user					
User	User Admin					Store: Huffle	puff Health Centre ᅌ		
Ger	neral	Permissions	Permissions (2)	Permissions (3)	Login rights	Details	Dashboard		
Document man	nagemen	it	Virtual St	ores		Customer bud	gets		
Dowr	<ul> <li>Upload tender document</li> <li>Download tender document</li> <li>Delete tender document</li> <li>Quotes</li> <li>Upload quote document</li> <li>Download quote document</li> <li>Delete quote document</li> <li>Delete quote document</li> <li>Modify quotes entered by the supplier (via the website)</li> <li>Items Lines (Batches of Stock)</li> <li>Upload batch document</li> <li>Download batch document</li> </ul>		C Edit	<ul> <li>Create new stores</li> <li>Edit store details</li> <li>Edit visibility in stores</li> <li>Reminders</li> </ul>			<ul> <li>Add/import customer budgets</li> <li>Edit/delete customer budgets</li> <li>Registration</li> <li>Add/edit registrations</li> </ul>		
Dowr     Delet     Modi     suppi  Items Lines (B     Uplo;     Dowr			to me Admin Send Purg View Set s View	<ul> <li>Send email</li> <li>Purge old records</li> <li>View log</li> <li>Set start of year stock</li> <li>View/edit preferences</li> </ul>			<ul> <li>Change registration status</li> <li>Requisitions</li> <li>View requisitions</li> <li>Create and edit requisitions</li> <li>Administer finalised report type requisitions</li> </ul>		
Stocktakes	Delete batch document			rt & import up data file	-	Supplier Hub			
<ul> <li>Create sto</li> <li>Delete sto</li> <li>Add stock</li> <li>View stock</li> </ul>	<ul> <li>Create stocktake</li> <li>Delete stocktake</li> <li>Add stocktake lines</li> </ul>			assets edit assets assets		View and e	dit supplier hub details		
<ul> <li>Edit stock</li> <li>Delete sto</li> <li>Edit stock</li> </ul>	ocktake li	nes							
All on		Сору	Paste		Delete	Car	OK		

Click **OK** to save it and again click **OK** to close **User list...** window.

Once these permissions are set, the **Settings** button will be visible the next time the user logs in to mSupply Mobile.
