5. Setting up the Users to access the store

Unlike mSupply Desktop, mSupply Mobile does not need or use individual user permissions for the store. All that is required is for the user to have login rights to the store.

5.01. Setting up Store access for Users

At least one user needs to be added to the new store on the Primary server. The users will access the store from the device, but their credentials need to be set up on the Primary server.

To set up users on the Primary Server please refer to the mSupply User Guide managing users.

When creating new users who will be using mSupply Mobile, consider the following to make them easier to enter on a tablet:

- Only use lower-case letters for both username and password
- Consider using short usernames and passwords
- Strongly recommend that you take care not to have trailing spaces (at the end of the username or password)

5.02. Setting up Store access for Admin Users

At least one Admin User needs to be set up to have have access to the new store on the Primary server. This user will normally be the Sussol user that was used to set up the new store, but there could well be other local mSupply administrators that need access.

1. Go to **Admin > Edit Users**

Customer	Suppliers	ltem	Reports	Special	Admin
	(ک)	3	9		
	Check for up	dates Edit	users	View log	
		Preferences	Backup		
Data File: Demo_dati	a_171017.4dd	mSu	pply	7	

2. Select the user and go to Login Rights

	General	Permissions	Permissions (2)	Permissions (3)	Login rights	Details Dashboard	
Name		ls dis	abled	Default store		Can login	
Drug Registration							
General Warehouse							
Gryffindor District St	ore	6		D			
Hogwarts Dispensary	t.						
Hospital Info System							
Hufflepuff Health Cer	ntre			0			
Mobile Store 1		1					
Slytherin Health Cent	re			Ö		CI.	
Supervisor- All store	5			0			

- 3. Select the new Store
- 4. Click **OK**

5.03. Setting up Admin access to the device Settings

- To carry out various admin functions on the device, the logged in user needs the appropriate permission to access the mobile **Settings** page.
- You will likely *not* want the local users to have this permission. If that is the case, then an Admin user needs to be configured to have this permission.
- The Sustainable Solutions Sussol is hard-wired *not* to have this permission. A special Sustainable Solutions user called SussolMobile can be set up to have this permission.

In the mSupply Central server:

- 1. Log into the mobile store
- 2. Go to File > Edit users
- 3. Select the mobile user (whom you want to give permission to access Settings remember, not

the Sussol user 🧡), double click it. An edit user window will open.

4. Go to **Permission (3)** tab and check the **View/edit preferences** permission on

				Edit user					
User Admin				:	Store: Huffler	puff Health Centre ᅌ			
	General	Permissions	Permissions (2)	Permissions (3)	Login rights	Details	Dashboard		
Document	Document management		Virtual Stor	Virtual Stores			Customer budgets		
Quotes	 Upload tender document Download tender document Delete tender document Quotes 		 Edit sto Edit vis Reminders Edit and 	Edit and delete reminders assigned			 Add/import customer budgets Edit/delete customer budgets Registration Add/edit registrations Change registration status 		
C C C C C M S Items Lin C C			Admin Send er Purge o View lo Set stat View/e Export	 Send email Purge old records View log Set start of year stock View/edit preferences Export & import 			 Requisitions View requisitions Create and edit requisitions Administer finalised report type requisitions Supplier Hub 		
Stocktakes			Sackup	data file		View and e	dit supplier hub details		
 Delete Add s View s 	e stocktake e stocktake tocktake line stocktake line tocktake line	es	Assets View as Add/ed Setup a	it assets		view and e	un supplier nub details		
Delete	e stocktake ine tocktake date	nes							
All on		Сору	Paste		Delete	Can	OK		

Click **OK** to save it and again click **OK** to close **User list...** window.

Once these permissions are set, the **Settings** button will be visible the next time the user logs in to mSupply Mobile.
