

[NeedsReview](#)

Dispensing

Dispensing mode only shows if the store is configured correctly on the server. Read how [here](#)

Patients

When you tap the **Dispensary** icon you will get a list of your patients. You can search for a particular patient using the field in the search bar.

TIP: you can search by first and last name by using a comma. For example: g, j will search for all patients whose last name starts with G and first name starting with J.

Searching for a Patient (on the server)

- If a patient does not exist in your current store, and you have internet access, you can search for the patient on the server
- Click the **Lookup patient** button

- You'll see a new window
- Enter some or all of the patient's first name, last name and/or date of birth and insurance policy number (if used)
- Click **Search**

Last name

potter

Prescribers

You can show, add and edit prescribers in just the same way as you do for patients.

Simply tap the “Prescribers” toggle button at the top of the window:

To edit a prescriber, tap the edit (pen icon) button for the row you wish to edit. You're then shown the prescriber's details:

- Note though, that you cannot edit this prescriber. This is indicated by the book icon in the edit column, rather than the pencil which shows for your local prescribers.
- If no prescribers match your criteria you will be shown the message below. Try making your search more general, for example search just for the first letter of their name

Dispensing to a patient

- Firstly, find the patient to dispense to (as above for viewing/editing a patient)
- Then click the **Dispense** button on that row.

Dispensing is a three step process. Each step must be completed before you can move to the next step

1. Step 1 you must select a prescriber by clicking on the SELECT icon
 - NOTE: You can press the HISTORY and EDIT icons next to the patients name to edit the patients details or view their history at any time.
 - You can filter the list using the search bar
 - Once you have selected a prescriber, you can edit the prescriber at any time using the EDIT icon next to the prescribers name
2. Step 2: You must select an item to dispense by selecting the row on the left hand side. You can filter the items using the search bar

3 Finalise

Prescriber Jasmine McKewen

Cancel Complete

Tapping the **Complete** button will finalise the prescription. That means that it's locked- you can't edit it any more.

The screenshot shows the 'Prescription 922' screen in the mSupply application. At the top, there's a header with the mSupply logo, 'SYNC ENABLED', and a signal icon. Below the header, a progress bar indicates three steps: 1. Select the prescriber, 2. Select items (current step), and 3. Finalise. The patient's name 'Joshua Griffin' is displayed under 'Patient', and the prescriber's name 'Jasmine McKewen' is displayed under 'Prescriber'. A 'Comment:' field is visible. The 'Item Details' section shows 'ABACAVIR / LAMIVUDINE 60/30 MG CP' with a quantity of '3'. The 'Code' is 'AB33297' and 'Directions' are listed below. At the bottom right, there are 'Cancel' and 'Complete' buttons.

That was easy!. If you've enabled payments, you can go to the next step to receive payment. If not, you'll continue and dispense the next prescription.

Payments

The payments module needs to be configured on the server, so if it's turned off, you won't see it. Configuration instructions are [here](#) The 2 configuration settings that must be set to “true” are:

- usesDispensarymodule
- usesPaymentsmodule

Once enabled, when you arrive at the summary page where you check the details of a prescription, you will be shown a payment summary and each item will show its price:

Prescription 924

1 Select the prescriber Patient Joshua Griffin

3 Finalise Prescriber Jasmine McKewen

Comment:

ABACAVIR / LAMIVUDINE 60/30 MG CP 3

Code AR33197

Directions

Payment

Espèce

Payment Amount 30.00

Available credit 0.00

Credit used 0.00

Subtotal 30.00

Change required 0.00

Total 30.00

Cancel Complete

The dropdown list under the “Payment” allows you to select the type of the payment. (Types are configured on the server).

Payment

Espèce

Chèque

Carte visa

Paiement mobile

Payment Amount 0.00

Available credit 0.00

Credit used 0.00

Subtotal 30.00

Change required 0.00

- The **Payment Amount** is the amount the patient is paying
- If they have any available credit, this will be listed under the **Payment Amount**
- There can only be a **Payment Amount** less than the **Total**, if the patient has sufficient available credit to cover the difference.
- The amount of credit is shown under **Credit Used**
- The change required is the amount of change to give to the patient
- It is only possible to finalise a prescription when payments are enabled, when the payment amount is a valid value

Here's an example if the patient doesn't have enough credit:

Insurance

If the server has insurance providers enabled, the mobile store will also.

This will enable the insurance drop-down list and the **add** button (The orange “plus” button to the right):

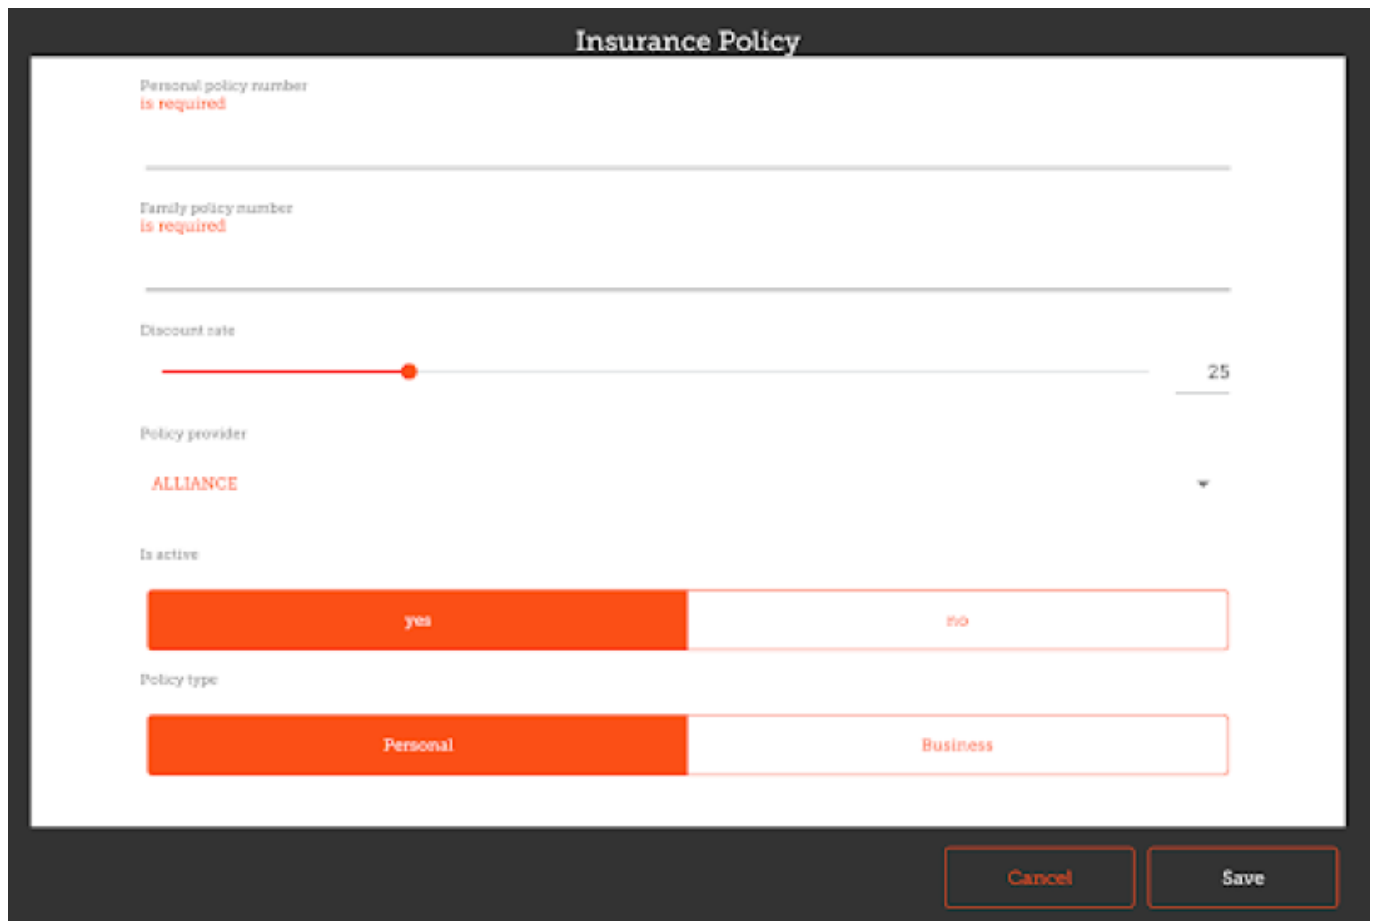

The screenshot shows the 'Prescription 924' screen in the mSupply application. At the top, there are three numbered steps: 1. Select the prescriber (Joshua Griffin), 2. Select items (ARACAVIR / LAMIVUDINE 60/30 MG CP), and 3. Finalise (Jasmine McKewen). The 'Payment' section is highlighted, showing a dropdown for 'Select an insurance policy' with a red '+' button. Below this, the 'Payment Amount' is displayed as 30.00. A table shows the breakdown: Subtotal (30.00), Insurance discount rate (0%), Insurance discount amount (0.00), and Change required (0.00). The 'Total' is 30.00. At the bottom right, there are 'Cancel' and 'Complete' buttons.

When entering the payment details, if the patient has an insurance policy, you can select it from the drop-down list:

This close-up shows the 'Payment' section with the 'Select an insurance policy' dropdown menu open. The menu displays the text '123123 456'. To the right of the dropdown are two red buttons: a pencil icon (Edit) and a plus icon (Add). Below the dropdown, the 'Payment Amount' is shown as 22.50.

You can use the **Edit** (the “pen”) or **Add** (the “plus”) buttons to add or edit insurance policies.

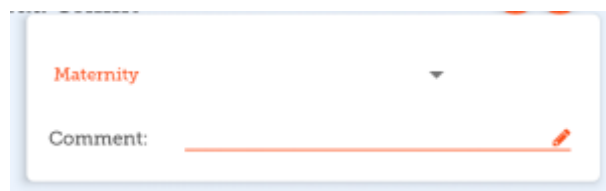

If you click the **Add** button you can add an insurance policy:

The screenshot shows the 'Insurance Policy' form. It includes fields for 'Personal policy number' and 'Family policy number', both marked as 'required'. A 'Discount rate' slider is set to 25. The 'Policy provider' dropdown is set to 'ALLIANCE'. The 'Is active' toggle is set to 'yes'. The 'Policy type' toggle is set to 'Personal'. At the bottom right, there are 'Cancel' and 'Save' buttons.

The **Save** button is only enabled when you've entered a valid value in each field that is labelled as "required".

If you have set up transaction categories on the server, then you'll be able to choose one at the top left of the window:

The screenshot shows a form with a dropdown menu set to 'Maternity' and a 'Comment:' field with a red pencil icon for editing.
