1. Step 1 you must select a prescriber by clicking on the SELECT icon
  - o NOTE: You can press the HISTORY and EDIT icons next to the patients name to edit the patients details or view their history at any time.
  - o You can filter the list using the search bar
  - o Once you have selected a prescriber, you can edit the prescriber at any time using the EDIT icon next to the prescribers name
2. Step 2: You must select an item to dispense by selecting the row on the left hand side. You can filter the items using the search bar

The screenshot shows the mSupply interface for Prescription 922. At the top, it displays 'Prescription 922', the mSupply logo, and 'SYNC ENABLED'. Below this, there are three numbered steps: 1. 1. Step 3: You can view the final results of the prescription and add any other details such as a comment.

Tapping the **Complete** button will finalise the prescription. That means that it's locked- you can't edit it any more.

That was easy!. If you've enabled payments, you can go to the next step to receive payment. If not, you'll continue and dispense the next prescription.
