

Supplier Invoices

After you've sent a Supplier Requisition, (General Order or Program order) to your supply store, that information will be sent to the supplying store for processing. The supplying store processes your requisition into a **Customer Invoices** for your store. As these customer invoices are created, you will see a corresponding **Supplier Invoice** in your store. This is exactly like the hard-copy (paper) invoice you would usually receive with your order. You may still continue to receive a paper invoice when your order arrives, but this electronic version in mSupply is the one that you will need to work with.

Only supplier invoices from mSupply stores in your system will appear automatically. If you are receiving stock from a supplier that is **not** an mSupply store, then a Supplier Invoice will **not** automatically appear. You will need to create it - see Create a new Supplier Invoice for a non-mSupply supplier.

Let's go through each step...

A list of Supplier Invoices will appear.

You can use the **Status** column to check the processing status of each invoice.

- **In Progress**: You have not yet processed the stock in to your store. It might not have even arrived yet!
- Finalised: You have processed the stock in to your store. You can not edit this supplier invoice.

Create a new Supplier Invoice for a non-mSupply supplier

If you are receiving stock from a supplier that is not an mSupply store, then you will need to:

- 1. Create a new Supplier Invoice by clicking on the **New Invoice** button
- 2. Add the supplier you are wanting to receive stock from
- 3. Add items to the Supplier Invoice and edit the quantities, batch and expiry details
- 4. Once you are happy with the details, Finalise the Supplier Invoice
