

## **Supplier Invoices**

Supplier Invoices will appear in your system automatically once they have been created by your Internal Supplier, either when the Supplying store processes your Supplier Requisition, or if they **'push'** stock to your store.

Only supplier invoices from **Internal Suppliers** (mSupply stores in your system) will appear automatically. If you are receiving stock from an **External Supplier** (**not** an mSupply store), then a **Supplier Invoice** will **not** automatically appear. You will need to create one - see Create a new Supplier Invoice for an External Supplier.

Let's go through each step of processing a **Supplier Invoice** from an **Internal Supplier**.

A list of Supplier Invoices will appear.

You can use the **Status** column to check the processing status of each invoice.

- In Progress: You have not yet processed the stock in to your store. It might not have even arrived yet!
- Finalised: You have processed the stock in to your store. You can not edit this supplier invoice.

Check each line on the supplier invoice in mSupply Mobile against what you have actually received. If you have received a different quantity to what is displayed, tap on the quantity and adjust it.

When you are satisfied that the Supplier Invoice matches the stock you have received, tap **Finalise** and then **Confirm**. This will accept it into your stock. Your **Stock On Hand** numbers will automatically update!

## Create a new Supplier Invoice for an External Supplier

If you are receiving stock from a supplier that is not an mSupply store, then you will need to:

- 1. Create a new Supplier Invoice by clicking on the **New Invoice** button
- 2. Add the supplier you are wanting to receive stock from
- 3. Add items to the Supplier Invoice and edit the quantities, batch and expiry details
- 4. Once you are happy with the details, Finalise the Supplier Invoice
