

# 5. Supplier Requisitions (Program Orders)

You would like to order some stock from your supplier for a program.

You need to create a **Program Order**, which will automatically populate your requisition with items in the program.

### **1. Click on Supplier Requisitions**

	the second se	
Customer Invoices	Supplier Invoices	Current Stock
Customer Requisitions	Supplier Requisitions	Stocktakes

When your store has access to at least one program, creating a Supplier Requisition will prompt you to choose from either a **Program Order** or a **General Order**.

### 2. Click on Program Order

#### 3. Select the Program, Supplier, Order Type and Period

This information must be completed **sequentially**. The arrow points to which step you are up to, and the tick shows which steps have been completed.

When selecting the **Order Type**, further details can be seen on the right:

- **Maximum MOS:** maximum number of months' stock to be kept for each item, which will help determine the suggested quantities to order
- **Threshold MOS:** items with number of months' stock *less* than this value will appear in the order by default
- Maximum orders per period: maximum number of orders that can be placed in a given period

		×
Q Start typing to search		
Emergency Order	[Emergency order] Max. Items: 5	- Max MOS: 3 - Threshold MOS: 1
Normal Order	Max orders per period: 1	- Max MOS: 3 - Threshold MOS: 1

When selecting the **Period**, further details can be seen on the right:

- Period dates i.e. the interval of the period
- Number of requisitions already created for the same period, supplier and order type

#### 4. Click OK and review the requisition

The requisition is created and is populated with all program items.

Note that you cannot add additional items to a Program Requisition.

Requisitio	n 1				<b>M</b> Supply						nalise 💽
Program: Order Type: Entry Date: Entered By: Q	Tuberculosis Emergency order 18/7/2019 admin	Period: Supplier: Months Stock Comment:	July Gene 1.5	2019 07 tral Warel	7/01/19 - 08/31/19 house			2	Use Suggested Quantities blide over stocked	View Re Show on	pirrem Data
CODE ¢	ITEM NAME	•	PRICE	UNIT	CURRENT STOCK	٥	MONTHLY USE	0	SUGGESTED & REGUL	STED 0	REMOVE
							USE		GUANTITY - GUA	VIIIY -	

Why are there are no items visible in this example?

- The **Hide Over Stocked** button is selected by default, which hides all items that have stock over the threshold MOS.
- All the stock on hand in this example is over the threshold MOS, so no items are visible.
- When you click the **Show Over Stocked** button, all items that are over the threshold MOS appear.

Note that the **Price** displayed in a Program Requisition is the price the supplier sells the item for.

### 5. You can click on Use Suggested Quantities...

If you are certain that you are not ordering an item which you have not previously ordered! By choosing this option, mSupply will automatically calculate the amounts of each item you require, **once it builds up a history of how much stock you're using**.

Alternatively, manually enter the **Requested Quantity** for individual items.

# 6. Click the View Regimen Data button

Requisitio	n 1			PINALISE					
Program: Order Type: Entry Date: Entered By:	Tuberculosis Emergency order 18/7/2019 admin	Period: Supplier: Months Stoc Comment:	July Gen k: 15	2019 07 eral Wareł	//01/19 - 08/31/19 louse		Use for Quartit	ppeated View over shocked Show	legimen Data
CODE \$	ITEM NAME	-	PRICE	UNIT	CURRENT STOCK \$	MONTHLY USE ©	SUGGESTED QUANTITY	REQUESTED	REMOVE

# 7. When you are completely sure that everything is correct...

Click the **Finalise** button, then **Confirm** and your order will go to the supply store.
