

Vaccine Dispensing Setup

The screenshot shows a web application window titled "Edit store" for a store named "Hufflepuff Health Centre". The window has a tabbed interface with the following tabs: General (selected), Preferences, Master lists, Logo, Synchronisation, Custom fields, and Log. The "General" tab contains the following fields and options:

- Store code: (highlighted with a red box)
- Store type: (dropdown menu)
- Name:
- Organization name:
- Address line 1:
- Address line 2:
- Address line 3:
- Address line 4:
- Address line 5:
- Postal/Zip Code:
- Phone:
- Tags:
- ☐ Disable this store
- Responsible officer: (dropdown menu)
- Store credentials section:
 - ☐ Use store credentials
 - Username:
 - Password:
- View name associated with this store:

At the bottom of the window, there are four buttons: "OK & Previous", "OK & Next", "Cancel", and "OK".

Ensure that your store has visibility of at least one item that is a vaccine

Cancel OK & Next OK

If you want to record when a patient has refused a vaccine, you need to create a patient event. Otherwise, no record will be created.

The 'Patient event list...' window displays a table with four columns: Code, Description, Event type, and Unit. The table contains three rows of data: NT (Note), PCD (Patient clinical data), and RV (Refused vaccination). The RV row is highlighted in blue. The window also features 'New' and 'Delete' buttons at the top left and an 'OK' button at the bottom right.

Code.	Description	Event type	Unit
NT	Note	DS	
PCD	Patient clinical data	OB	
RV	Refused vaccination	OB	

The 'Edit patient event' window allows editing the details of a patient event. It includes fields for Code (RV), Description (Refused vaccination), Event type (a dropdown menu), and Units (an empty text field). The window also features 'Cancel' and 'OK' buttons at the bottom.

Units:

If you want to record extra patient information during vaccinations, get in contact with The mSupply Foundation as we have no interface for you to create the forms, yet.

Once complete, your mSupply mobile interface will look like this:
