

# Vaccine Dispensing Setup

The screenshot shows a software window titled "Edit store" for "Hufflepuff Health Centre". The window has several tabs: "General" (selected), "Preferences", "Master lists", "Logo", "Synchronisation", "Custom fields", and "Log".

**General Tab Fields:**

- Store code:  (highlighted with a red box)
- Store type:  (dropdown menu)
- Name:
- Organization name:
- Address line 1:
- Address line 2:
- Address line 3:
- Address line 4:
- Address line 5:
- Postal/Zip Code:
- Phone:
- Tags:

**Right Side Options:**

- ☐ Disable this store
- Responsible officer:  (dropdown menu)
- View name associated with this store:

**Store credentials section:**

- ☐ Use store credentials
- Username:
- Password:

**Buttons at the bottom:** "OK & Previous", "OK & Next", "Cancel", and "OK" (highlighted in pink).

Ensure that your store has visibility of at least one item that is a vaccine

Cancel OK & Next OK

If you want to record when a patient has refused a vaccine, you need to create a patient event. Otherwise, no record will be created.

The 'Patient event list...' window displays a table with four columns: Code, Description, Event type, and Unit. The table contains three rows of data: NT (Note), PCD (Patient clinical data), and RV (Refused vaccination). The RV row is highlighted in blue. The window also features 'New' and 'Delete' buttons at the top left, a '3/3' indicator at the bottom left, and an 'OK' button at the bottom right.

Code.	Description	Event type	Unit
NT	Note	DS	
PCD	Patient clinical data	OB	
RV	Refused vaccination	OB	

The 'Edit patient event' window allows editing a patient event. It contains four fields: 'Code' (set to RV), 'Description' (set to Refused vaccination), 'Event type' (a dropdown menu), and 'Units' (an empty text field). The 'Code' field is highlighted in blue. The window also features 'Cancel' and 'OK' buttons at the bottom right.

Code:

Description:

Event type:

Units:

If you want to record extra patient information during vaccinations, get in contact with The mSupply Foundation as we have no interface for you to create the forms, yet.

Once complete, your mSupply mobile interface will look like this:
