

mSupply Table

This is a custom panel which will need to be installed on your server. Contact mSupply support if this panel is not available to you. The mSupply table is an extension of the bundled Table plugin, which adds * clickable actions to cells which update filter values * a button which allows exporting the data direct to excel (requires the msupply-dashboard-app plugin also)

Be aware that it also removes the Filter functionality of the bundled table plugin.

The screenshot shows the 'Item Stock' interface. At the top, there are navigation tabs: 'Item', 'Store', and 'Source', all set to 'All'. Below these are various filter and view options: 'Expiry Items', 'Item Stock by Store', 'Items', 'MOS', 'Overview', 'Purchase Orders Outstanding', 'Store Details', 'Stores', and 'Turnover'. The main content is divided into two sections:

- Stock on hand:** A table listing various medical supplies with columns for 'Item', 'Unit Price', 'Stock', and 'Source'.
