

mSupply World Map

This is a custom panel which will need to be installed on your server. Contact mSupply support if this panel is not available to you. The world map displays points on a map, the size of which relate to a numerical value from your query. You can set the colour thresholds for each region and you can define clickable actions to update filter values based on the point clicked, as shown

The screenshot shows the 'Store Details' page with a 'Months of stock for All' map and a 'Stock on hand for All' table. The map displays points for New Zealand with a legend for stock levels: < 1 (red), 1-6 (orange), 6-12 (green), and 12+ (blue). The table lists items with their stock on hand (SOH) and a 'VEN' column.

To use, select the msupply-worldmap visualisation option:

There are a number of options available in the **Display** section:

* **Show export button** toggles display of the export button * **Export button title** which allows customising of the export button text

And the option to link a cell to a variable is per field, so it can be specified as an override to select this for a single column only:

▼ **Override 1**
